

Reference for Tim Way, Tim's Carpentry

From: John and Kelly Mitchell, 6246 Jim Mitchell's Rd., Longford Mills 705 326 6946

In the past several years, we have extensively renovated our home, both interior and exterior. We were creating our dream home and wanted it done properly and professionally with care in every detail.

After interviewing several other carpenters/contractors, we met with Tim Way. We were readily impressed with Tim's knowledge of his trade and as this is not our full time residence, we needed assurance that our home was left in good, reliable hands.

We couldn't have made a better choice.

We discussed our plans and ideas with Tim. This was a major renovation, going back to the frame of the home and starting again from the floor upwards. It also involved an addition to the home plus a deck, work shop and landscaping. He removed walls, moved walls, added closets, replaced doors, installed hardwood floors and windows. We naturally had concerns, questions and needed guidance. Tim provided all that and more. His quote and timeline were reasonable and he stuck to it. He gave us some tips on saving some money along the way and ideas on what he thought would work best. He guided us to reputable dealers for flooring and appliances, kitchen and bathroom fixtures. He is very well known and respected in his field.

Along with all this, he keeps a clean, neat and tidy workplace and was very conscious of keeping the drywall dust down to a minimum.

Without a doubt, Tim made our experience one that was thrilling and exciting, seeing our home transformed into our dream home.

You are in good hands with Tim Way and we have recommended him highly to everyone we know.

We would be happy to speak with anyone personally should you have any questions or come and see our home for yourself.
